TELECOMMUNICATIONS DIVISION

Attention: Mr. Kevin Sosbe

Regarding: AT&T Catalog Informational Filing – **Retail and Wholesale**

Commissioners:

Please find attached revised AT&T Catalog pages that modify the Company's CSME (Customized Switched Metro Ethernet) Service offering. This filing:

- removes the OPT-E-MAN[®] migration requirement
- removes the 120 month contract option
- reduces the price for several rate elements
- introduces a termination charge waiver under certain circumstances

The attached informational pages and associated cost work are provided pursuant to the Commission's Order in Cause No. 42405 and the Order on Wholesale Discounts issued by the I.U.R.C. in Cause No. 41055. Cost information is to be treated as confidential, proprietary and a trade secret and exempt from public disclosure pursuant to I.C. 8-1-2-29 on a preliminary basis.

If you have any questions, please give me a call at 265-5688.

Sincerely,

Mary S. Thompson
Director - Regulatory

Office of Utility Consumer Counselor

4. CUSTOMIZED SWITCHED METRO ETHERNET (CSME) SERVICE (cont'd)

B. TERMS AND CONDITIONS (cont'd)

6. Should the customer wish to segregate traffic, a total of 8 Ethernet Virtual Connections (EVCs) may be configured per 10/100 Base T connection. A total of 64 EVCs may be configured per 1 Gbps connection. Should the customer request more than 64 EVCs on a 1 Gbps connection, a technical review will need to be conducted to determine whether the network will support more than 64 EVCs.
7. If a customer desires that service be provided on a due date less than the standard interval, the customer may request that service be provided on an expedited basis. If the Company determines that service can be provided on the requested expedited date and spare facilities are available, the Expedite Order Charge (per port, per location) will apply. See **PRICES** following.
8. If the customer cancels service prior to installation being completed, a Service Order Cancellation charge (per port, per location) will apply. See **PRICES** following. The customer's intent to cancel service must be made in writing.
9. CSME Service is not available in a meet-point billing arrangement involving other Carriers.
10. Service Level Agreements are not offered with this service. However, Credit Allowances are applicable. See **PRICES** following.
- 11.
12. If the 10 Mbps or 100 Mbps connection is ordered, it will only be provisioned using the 10/100 Base T connection.

1st Revised Sheet No. 34.1

4. CUSTOMIZED SWITCHED METRO ETHERNET (CSME) SERVICE (cont'd)

B. TERMS AND CONDITIONS (cont'd)

13. The responsibility of the Company shall be limited to furnishing the CSME network. Subject to this responsibility, the Company shall not be responsible for the through transmission of signals generated by CPE or for the quality of, or defects in, such transmission or the rejection of signal by CPE. The Company shall not be responsible for installation, operation, maintenance or adapting CSME to the technological requirements of specific CPE. In addition, the Company shall not be responsible to the customer if changes in any of the equipment, operations or procedures of the Company used in the provisioning of CSME render any facilities provided by the customer obsolete; or require modification or alteration of such equipment or system; or otherwise affect its use or performance, provided the Company has met all applicable information disclosure requirements otherwise required by law.
14. Customers will be permitted to move from a 10 Mbps or 100 Mbps Connection to a 1 Gbps Connection, however, the Nonrecurring Charge associated with the new 1 Gbps Connection will apply. See **PRICES** following.
15. The Company will use controls to limit the amount of multicast and broadcast traffic to protect the CSME network against traffic storms. The maximum throughput of multicast traffic will be set at 1 Mbps per customer port, while the maximum throughput of broadcast traffic will be set at 200 packets per second per port. The Company recommends that customers enable controls for multicast, broadcast and unknown unicast traffic within the customer network(s). (N)

E. PRICES (cont'd)

2. Payment Plans

• **Term Payment Plans**

CSME Service is only available under the Term Payment Plan (TPP) whereby customers must select either a 36 or 60 month period. Decreases in CSME monthly recurring charges will be passed onto customers who participate in a TPP. After the selected Term Payment Plan period is satisfied, the Monthly Extension Price in effect at the time of contract expiration will apply unless a new TPP is selected. Refer to **Term Payment Plans** in Part 2, Section 3.

(C)

• **Single Payment Option (SPO)**

A single payment option is available for this service. Refer to **Term Payment Plans** in Part 2, Section 3 for calculating Single Payment Options.

3. Termination Charges

Termination Charges will apply to service terminated prior to the contracted period. In addition to any unpaid Special Construction or nonrecurring charges (excluding any waived charges), Termination Charges will be equal to:

- 50 percent (50%) of all recurring charges for the remaining months of the customer's term.

(N)

E. PRICES (cont'd)

3. Termination Charges (cont'd)

Customers will be permitted to upgrade from CSME Service to OPT-E-MAN® Service, without incurring Termination Charges, given all the following conditions are met:

- The customer must issue a disconnect order for the existing CSME locations and place a new service order for OPT-E-MAN Service at the same locations. Termination Charges for CSME Service at the current locations will be waived.
- The term of the new OPT-E-MAN Service contract must be equal to or greater than the remaining time left on the existing CSME contract.
- The existing CSME Service must have been in service for a minimum period of 15 months for a 3-year contract or 18 months for a 5-year contract.
- Upgrades are contingent on availability of fiber from premises to premises, and the availability of OPT-E-MAN Service in the serving area. Other Special Construction charges, as necessary, may apply.
- The customer's network configuration must remain the same (i.e. multipoint CSME to multipoint OPT-E-MAN). The number of OPT-E-MAN locations must be greater than or equal to the current number of CSME locations.
- A minimum of 50% of the connection speed for each individual connection must be maintained:
 - If customer has a 1 Gbps CSME connection, then customer must purchase a minimum 500 Mbps OPT-E-MAN connection
 - If customer has a 100 Mbps CSME connection, then customer must purchase a minimum 50 Mbps OPT-E-MAN connection
 - If customer has a 10 Mbps CSME connection, then customer must purchase a minimum 5 Mbps OPT-E-MAN connection
